### **Peters Amendment on Air Traffic Systems**

On page 42 of the report, at the appropriate place, insert:

*“Facility Replacement and Radar Modernization.—*The FAA currently owns 370 facilities and 618 radars, most of which are decades old and well beyond their useful life, requiring expensive repairs and short-term fixes to avoid gaps in air traffic services. Replacement of these facilities and radar is critical to the safe operations of the NAS, including for the DOD, DHS, and other law enforcement agencies. To address this backlog, the budget request includes a mandatory funding proposal for the FAA to replace and modernize its air traffic control towers, terminal radar approach control facilities, air route traffic control centers, and radars. The Committee encourages the FAA to continue working with the authorizing committees of jurisdiction on the details of this proposal. The Committee believes any such proposal should also include a requirement to submit a spend plan to the House and Senate Committees on Appropriations for approval. The Committee also directs the FAA be mindful of the consideration of aging towers referenced in section 608 of the FAA Reauthorization Act of 2024 in the development of this proposal and in the Facilities and Equipment spend plans.”

**Rubio Amendment on Sign Restrictions**

At the appropriate place, insert the following:

SEC. \_\_\_\_None of the funds made available by this act may be used to require a recipient of Federal funds to display signage containing the name of the President, Vice President, or any member of the President's Cabinet as a condition of the receipt of such funds.

**Hagerty Amendment on Voting-Related Activities**

At the appropriate place in the beginning of the report, insert the following:

*“Voting-related Activities.*—The Committee notes that the Department has not yet provided the briefing required under this heading in Senate Report 118–70. As such, the Committee directs the Secretary to brief the House and Senate Committees on Appropriations, within 30 days after enactment of this act, regarding any strategic plans developed by the Department over the prior three fiscal years outlining ways for the Department to promote voter registration and voter participation.

### **Rubio Amendment on Emergency Shelters and Supportive Services**

On page 131 of the report, at the appropriate place, insert the following:

*“Emergency Shelters and Supportive Services.—*The Committee underscores the importance of housing options for building pathways to long-term housing stability, such as through well-designed rapid re-housing, transitional housing, or permanent supportive housing models. However, the Committee is concerned that in placing an appropriate emphasis on long-term solutions, the more immediate needs of individuals and families in emergency shelters may be overlooked. Emergency shelters are most effective when shelter operations are combined with onsite and robust supportive services to best position shelter residents for successfully exiting the system into long-term stable housing. Therefore, the Committee directs HUD to review agency guidance regarding the use of Homeless Assistance Grants funds in emergency shelters and identify regulatory or statutory measures that may potentially undermine either the direct provision of supportive services or the effective partnership with other Federal, State, or local stakeholders and service providers. The Department is directed to submit a report to the House and Senate Committees on Appropriations within 90 days of the enactment of this act on its findings.”
