

# COMMITTEE *on* APPROPRIATIONS

## CHAIRMAN PATRICK LEAHY

### **Summary of Emergency Supplemental Funding to Address the Crisis in Ukraine**

*Prepared by the Office of Chairman Patrick Leahy (D-Vt.)*

Senate Appropriations Committee Chairman Patrick Leahy (D-Vt.) Wednesday announced a \$13.6 billion bipartisan agreement to provide emergency assistance to Ukraine and our NATO allies. The agreement includes the necessary resources to bolster the defense capabilities of the Ukrainian military, regional allies and partners, support the implementation of economic sanctions and export restrictions on Russia, and address the evolving humanitarian crisis resulting from President Putin's unprovoked attack on the Ukrainian people.

#### **Defense:**

- **Department of Defense:** The bill provides \$6.5 billion for the Department of Defense. This includes \$3.5 billion to restore military stocks of equipment that has been transferred to the government of Ukraine, and \$3.1 billion to address deployment, operational, and intelligence costs for U.S. forces deployed to Europe to deter further aggression.

#### **State, Foreign Operations, and Related Programs:**

- **Humanitarian Support:** The bill provides \$4 billion to respond to the rapidly expanding humanitarian crisis in Ukraine, where more than 12 million people are in need of urgent, life-saving assistance and more than 1.5 million people have become refugees in neighboring countries, and respond to other humanitarian emergencies. The funds will support the provision of food, shelter, and other basic necessities to these increasingly desperate populations.
- **Military Support:** The bill provides \$650 million in military support and an expansion of existing authorities to bolster the defense capabilities of the Ukrainian military and regional allies and partners.
- **Economic Assistance:** The bill provides more than \$1.7 billion for economic and stabilization assistance in Ukraine and impacted countries in the region.

#### **Commerce, Justice, Science, and Related Agencies:**

- **Department of Justice:** The bill provides \$59.4 million for the Department of Justice to investigate and prosecute sanctions violations, cyber threats, and ransomware related to the Russian threat and the war in Ukraine, including efforts to combat kleptocracy.
- **Department of Commerce:** The bill provides \$22.1 million for the Bureau of Industry and Security within the Department of Commerce for enhanced export control

enforcement, economic and trade-based analysis, and increased coordination with allies' and partner countries' export control authorities.

**Agriculture, Rural Development, Food and Drug Administration, and Related Agencies:**

- Food Aid – The bill provides \$100 million for PL 480 Title II grants – commonly known as the Food for Peace (FFP) program – for emergency food assistance to Ukraine and the surrounding region.

**Financial Services and General Government:**

- Economic Sanctions – The bill provides \$61 million for Departmental Management, the Office of Terrorism and Financial Intelligence, and the Financial Crimes Enforcement Network within the Department of the Treasury. These resources will support analysis of Russian economic vulnerabilities, sanction targeting, and Russian policy and financial measures as the Department of the Treasury implements the most ambitious program of economic sanctions in the history of the Department. These resources will also monitor the impact of sanctions on the economy in coordination with financial institutions and financial markets here and abroad.

**Energy and Water Development:**

- Electric Grid – The bill provides the Department of Energy with \$30 million to provide technical and cyber-security assistance with efforts to integrate Ukraine's electric grid with the European Union's electric grid.
