

**Further Additional Continuing Appropriations and Other
Extensions Act, 2024**
Section-by-Section Summary

**DIVISION A – FURTHER ADDITIONAL CONTINUING
APPROPRIATIONS ACT, 2024**

Sec. 101. Further amends the Continuing Appropriations Act, 2024 (division A of Public Law 118-15), continuing funding at the levels and under the conditions provided in fiscal year 2023 appropriations acts for continuing projects and activities, with exceptions and modifications for technical budgetary issues and certain extensions and authorities.

Most significantly, section 101 modifies the two expiration dates established in the second continuing resolution (Further Continuing Appropriations and Other Extensions Act, 2024, Public Law 118-22), changing those dates to March 1, 2024 (from January 19, 2024), and March 8, 2024 (from February 2, 2024). Section 101 does not change the division of fiscal year 2024 appropriations bills between the two expiration dates. The first expiration date, March 1, 2024, applies to the following four bills: Agriculture, Rural Development, Food and Drug Administration, and Related Agencies; Energy and Water Development; Military Construction, Veterans Affairs, and Related Agencies; and Transportation, Housing and Urban Development, and Related Agencies. The second expiration date, March 8, 2024, applies to the remaining eight fiscal year 2024 appropriations bills: Commerce, Justice, Science, and Related Agencies; Defense; Financial Services and General Government; Homeland Security; Interior, Environment, and Related Agencies; Labor, Health and Human Services, Education, and Related Agencies; Legislative Branch; and State, Foreign Operations, and Related Programs.

In addition to extending the two expiration dates, section 101 also includes a few technical modifications. Two of the modifications update provisions included in the first continuing resolution and extended by the second continuing resolution. The remaining two modifications provide new flexibilities to the National Nuclear Security Administration within the Department of Energy and the Federal Aviation Administration within the Department of Transportation to spend at faster rates of operations, as needed, for the duration of the continuing resolution (in both cases, through March 1, 2024) to address specific circumstances.

DIVISION B – OTHER MATTERS

TITLE I – HEALTH AND HUMAN SERVICES

SUBTITLE A – PUBLIC HEALTH EXTENDERS

Sec. 101. Extension for Community Health Centers, National Health Service Corps, and Teaching Health Centers That Operate GME Programs. Extends the Teaching Health Center

Graduate Medical Education program, the Community Health Center Fund, and the National Health Services Corps through March 8, 2024.

Sec. 102. Extension of Special Diabetes Programs. Extends the Special Diabetes Programs for Type I Diabetes, and the Special Diabetes Program for Indians through March 8, 2024.

Sec. 103. National Health Security Extensions. Extends, through March 8, 2024, the Assistant Secretary for Preparedness and Response's direct hire authority for the National Disaster Medical System, the ability for States and Tribes to request temporary reassignment of federally funded personnel, three national advisory committees related to preparedness and response, and certain authorities related to public-private partnerships under the Biomedical Advanced Research and Development Authority.
